Realise

Energy Services

Realise Energy Services is a specialist provider of operation and maintenance services for a range of wind turbines in the 200kW – 2MW size range, with particular expertise in Vestas and WTN turbines. We provide excellent monitoring and response times, experienced technicians, efficient access to original or improved spare parts and regular client communication.

We can provide highly competitive quotes over 1 to 10-year periods or beyond for a typical service and maintenance package. This includes turbine monitoring and control, data analysis and regular performance reporting.

If you need an experienced and reliable turbine operation and maintenance service, please contact us for a free, no obligation quotation.

Realise Energy Services:

- Operation and Maintenance
- Monitoring and control
- Major Component Repairs and Replacement
- Retrofits and Upgrades
- Inspections
- Wind Turbine Sales, Supply and Installation
- Decommissioning
